Limited Obstetric Case Submission Requirements

Each Advanced Clinical Provider (ACP) performing or interpreting Limited OB who meets the [training guidelines](#).

Each **WHNP, PAOG or CNM/CM** performing limited obstetric ultrasounds must submit:

- 1 normal limited OB ultrasound that includes biometry. Corresponding final report is required.

and

- 1 limited OB case documenting an abnormal placenta location. Corresponding final report is required.

All cases must follow the
General Requirements for the Submission of Case Studies

(<http://www.aium.org/accreditation/genecasereg.pdf>)

Note:

For the purpose of accreditation, all images must be appropriately labeled (for example – anterior placenta).

Limited Obstetric Imaging Checklists

ALARA – scans performed at less than 10 weeks GA should be done monitoring the Thermal Index for SOFT TISSUE and scans performed at 10 weeks or greater GA should be done monitoring the Thermal Index for BONE.
