

Donors

The AIUM's Endowment for Education and Research (EER) was created to provide much-needed funding for ultrasound research and educational initiatives. What makes this possible is the generous support of AIUM members, vendors, and individuals who provide gifts in honor or in memory of ultrasound professionals.

It is with great appreciation that the AIUM thanks the individuals listed below who contributed to the EER during the 2016 campaign. At the AIUM Annual Convention, these individuals have a ribbon on their name badge acknowledging their generosity.
